TOYOTA LANDCRUISER 4.5L TROOP CARRIER

03/2007 - 07/2016

 1300 992 195

 torqit.com.au

The 78 Series Troop Carrier may be lacking in many modern luxuries, but its still one of the most dependable off-roaders when it comes to handling whatever rugged terrain Australia can throw at it. Taking its capabilities to new heights, Torqit has developed a product range to safely and effectively target the prominent areas restricting its performance. For maximum results and savings, we recommend combining Torqit's product range in a full performance upgrade.

✔ **Response** ✔ **Power** ✔ **Torque** ✔ **Fuel Efficiency** ✔ **Note**

PERFORMANCE EXHAUST

Torqit has two Performance Exhaust options for the 78 Series Troopy. Each exhaust is mandrel bent from premium 304 grade steel, and built to:

- ✔ Maximise torque and performance
- ✔ Improve fuel economy and maximise energy output
- ✔ Deepen vehicle note with steel up to 2mm thick
- ✔ Increase flow, lower EGT's and reduce back pressure
- ✔ Withstand extreme off-roading and rugged terrain

Bolting onto the back of the turbo, Torqit's exhaust range for the pre-DPF Troopy also includes:

- ✔ High flow catalytic convertors for maximum flow
- ✔ Double braided flex bellows to absorb excess movement and vibrations
- ✔ Titanium coated dump pipes to rapidly disperse heat

Our 3.5" Troopy Performance Exhaust takes a unique path beneath the vehicle, with an eye-catching piece of brushed stainless steel visible below the side step. Both the 3" and 3.5" turbo back options include a resonator in the design, which produces a deep note with a V8 grumble.

ENGINE PERFORMANCE

Added weight from aftermarket accessories, heavy loads, and towing trailers/ boats can noticeably reduce the performance of the Troopy, as well as increase stress on the engine and reduce its fuel economy. Torqit provides two options to target these issues- the Power Module or ModuleMap.

Scan or click the QR code to check out the **incredible results on this remapped Troopy, using our DIY ModuleMap!**

POWER MODULE

- ✔ Adjust vehicle fuel rail pressure and turbo boost to increase torque and power
- ✔ Wireless Bluetooth control
- ✔ Simple plug and play installation
- ✔ Three modes (Economy, Cruise and Sport) with 27 settings
- ✔ 5 year product warranty

OR

MODULEMAP

- ✔ Remotely program and optimise vehicle settings
- ✔ DIY install without visiting a tuning shop
- ✔ Customise the tune to suit aftermarket modifications
- ✔ Adjust vehicle with three tunes: Cruise, Sport and Standard
- ✔ Return to factory settings at any time
- ✔ Includes drive-line warranty

PEDAL TORQ THROTTLE CONTROLLER

The Pedal Torq reduces throttle lag so that your Troopy is quicker off the mark, has smoother gear changes and responds quicker when overtaking and towing. An added bonus - you will see a potential improvement in fuel economy. We have two options to remove sluggish behaviour and enhance the drivability of the Troop Carrier - the Pedal Torq or Pedal Torq Plus.

PEDAL TORQ

- ✓ Six modes with 30 settings
- ✓ Personalise response with Intelligent mode; which adapts to your driving style
- ✓ Hardwired with easy dash mount control
- ✓ 5 year product warranty

OR

PEDAL TORQ PLUS

- ✓ Eight modes with over 60 settings
- ✓ Bluetooth connected with wireless control
- ✓ Immobilise vehicle with Anti-Theft Mode
- ✓ 5 year product warranty

For maximum results and savings, we recommend combining Torqit's Troop Carrier products for the ultimate full performance upgrade. **Check out our KIT options at www.torqit.com.au.**

STAINLESS STEEL SNORKEL

A properly functioning snorkel is crucial to preventing dust and water intake, and with Torqit's Stainless Steel 4" Landcruiser snorkel, it's also a chance to improve engine performance. Torqit's snorkel provides maximum airflow and engine efficiency, plus potential fuel savings. Key features of Torqit's Troopy Snorkel:

- ✓ Premium 304 grade stainless steel
- ✓ Mandrel bent, one-piece design
- ✓ Heavy-duty brackets with a laser cut logo and padded backing
- ✓ Stainless steel/ satin black powder coated option
- ✓ OEM-certified paint for guard cut
- ✓ Rubber pinch weld
- ✓ Industry-first steel fitting template
- ✓ Uses existing factory mounts
- ✓ 5 year product warranty

STAINLESS STEEL AIRBOX

A tightly sealed airbox is a non-negotiable for keeping your Troopy's engine free of water and dust. With a raised and tapered lid, Torqit's Stainless Steel airbox optimises airflow across the filter's entire surface area, which is 1.3 times larger than the standard airbox. Key features of Torqit's Stainless Steel Airbox:

- ✓ Premium 304 grade stainless steel
- ✓ CNC folded, and laser cut construction
- ✓ Ryco flat paper filter
- ✓ Integrated Donaldson water drainage valve
- ✓ Two-bolt and spring-hinged lid
- ✓ High flow hoses and silicone joiners
- ✓ Stainless steel/ satin black powder coated option
- ✓ Simple bolt-in installation
- ✓ 5 year product warranty

TESTIMONIALS

"There's no more lag in my truck. You could really feel the kick when you step on the pedal. Best upgrade so far for my truck." - D.Eight

"Wow! What a great way to upgrade your vehicle. I Installed the Power Module Plus in minutes and definitely felt a noticeable difference in my truck. Now I have three different settings to choose from depending on the driving conditions. Wanna save gas on a road trip? Click and done! Wanna get more low end torque for towing? Click and done! I'm like a kid with a new toy! I love showing off my Torqit app on my phone. It leaves all my friends impressed." - T.Little

"Highly professional company with excellent service, and build quality." - C.Perso

"Torqit fitted a new 3.5" exhaust to my 78 series 2008 model Troopy. Its best bit of kit I have spent money on in a long time. It has a great deep note and actually sounds like a V8 should. Staff were absolutely brilliant. Highly recommend the company and their products." - MrTullyblue

"The Power Module is excellent...it makes a hell of a difference. It feels like I've lost a few hundred kilos in the weight of the car, combined with the throttle controller it's just more urgent to move. All of it installed with the exhaust (and a Safari ram air snorkel) the motor feels like it's been freed up a bit - I can certainly hear it breathing a lot better when I drive...I reckon any of the pieces on their own would probably be good but the kit is the way to go, it's definitely worth the cost." - W.Harris
